Timing Chain - Removal and Installation

1. [Removal](#)
2. [Installation](#)

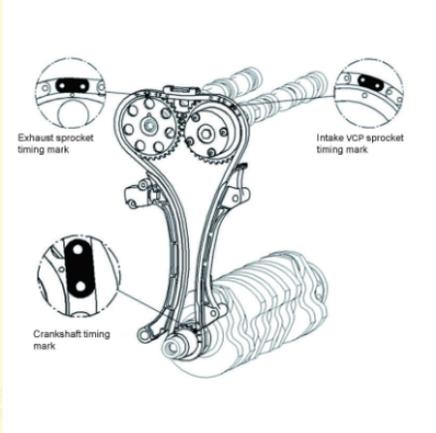

Removal

1. Remove peripheral parts such as electronic control system, fuel system, intake and exhaust systems, and belt drive system.
2. Remove the oil pan, cylinder head cover, and sprocket chamber oil pump assembly.
3. Remove the chain tensioner assembly and the upper shock plate.
4. Remove the timing chain.

Installation

1. Install the timing chain.

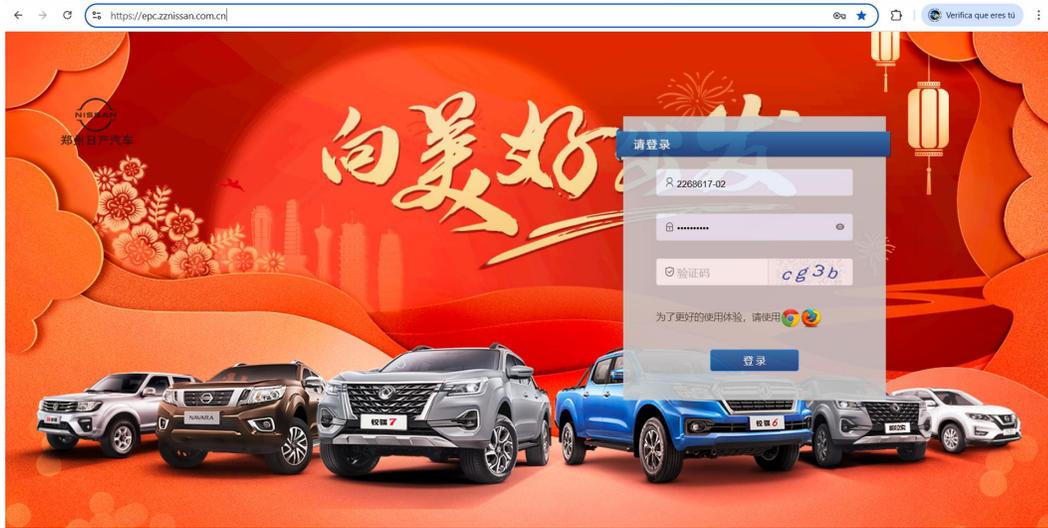

Caution:
When installing the timing chain, the mark on the chain must be aligned with the mark on the sprocket (3 places).

The diagram illustrates the timing chain assembly with three specific alignment points highlighted by callouts:

- Exhaust sprocket timing mark:** Located at the top left of the sprocket assembly.
- Intake VCP sprocket timing mark:** Located at the top right of the sprocket assembly.
- Crankshaft timing mark:** Located on the crankshaft at the bottom of the assembly.

ELECTRONIC PARTS CATALOG (EPC)

<https://epc.zznissan.com.cn/>

El **Electronic Parts Catalog (EPC)**, es el portal online del catálogo electrónico de piezas de vehículos ZNA.

Este portal es una plataforma digital que ayuda a garantizar la identificación correcta de las piezas para mantenimiento, reclamaciones de garantía y reparaciones, manteniendo la eficiencia en la gestión de piezas al proporcionar información técnica actualizada y datos de compatibilidad.
